NETWORK DEPOSITION SERVICES Transcript of Laureen Hagan 30 (b) (6)

1	It is this year that they have had some
2	that have merged for other reasons. Others are doing
3	so, or changing locations based off of COVID. So the
4	last number I had heard, which was probably several
5	weeks ago, is about 270 something unique locations.
6	Q So does that mean that there might be
7	locations that have two or more precinct, in-person
8	precinct voting in the same location? Two precincts
9	voting in the same location?
10	A Yes. That is correct.
11	Q Other than the 270 locations that you
12	mentioned, will there be any satellite offices of the
13	election office where people can return mail-in or
14	absentee ballots?
15	A Yes. The county is expecting to have three
16	voter service centers. That would be to the Media
17	bureau of election office inside the Government
18	Center. As well as a location in Upper Darby in the
19	voter services building. And also, in Chester City
20	Hall.
21	Q Will those voter service centers be manned?
22	A Yes. They will be.
23	Q Will they have particular hours of
24	operation, or days they are open, or times that voters
25	can return their ballots?

necessarily a rejection letter. But a notice to the voter that their identification review did not pass. So we give them that notice and explain to them their requirement to satisfy that need. Q So in addition to the in-person voting, and that is at the voting locations, the polling locations, and the three voter service center locations, are there any other methods or means that Delaware County intends to use to allow voters to return their mail-in ballots? A At this time they are the county is considering a mobile site where they would perhaps one day travel to one location, the next day to another location. That is not fully established at this moment. But that is they are hoping to deploy later in the election cycle. Q So can you explain what the mobile site would look like? Would it be a vehicle? Or would it be like a temporary site that is set up under a tent, and then it moves from place to place? Could you explain that a little more? A A little more the method described in the second item. So it is going to a different area one	1	Those type of items.
voter that their identification review did not pass. So we give them that notice and explain to them their requirement to satisfy that need. 1 day it might be going to a certain library another day. It might be going to a senior citizens center or 3 such as that. So it will travel. It will be listed as 4 5 far as where they are going to go. But it is not 6 being done in a vehicle, no. It will be in a 7 building. And that building could change from day to 8 day. 9 Q And who would be manning that mobile site? 10 The concept is not fully finalized at this It would be an employee of the Delaware County 11 12 board of elections. When does the county expect it will have a 13 14 final plan in place with respect to the mobile site or 15 employment of the mobile site? 16 Α Last time I heard it discussed, that would not come under the direct purview of my office. 17 last time I heard it discussed, it would be within the 18 19 next week to ten days. Would the mobile site be similar to one of 20 21 these voter service centers, just in a different 22 location from day to day? 23 Α Yes. I think that is an appropriate 2.4 summary. 25 Other than the potential use of a mobile

1	site and the voter service centers, any other method
2	that the county intends to use for voters to return
3	their mail-in ballots?
4	A Can you repeat the question?
5	Q Sure.
6	Other than the mobile site, the potential
7	use of the mobile site, and the three voter service
8	center locations, that you mentioned, are there any
9	other means or methods that Delaware County intends to
10	employ for voters to return their mail-in ballots?
11	A Yes. The county intends to deploy these
12	drop boxes throughout the county.
13	Q Could you explain what you mean by drop
14	box?
15	A Certainly.
16	If a voter receives a by mail product, if
17	they requested mail-in or absentee, we would send that
18	to the address where they asked it go to.
19	Then the county's expectation is we are
20	trying to secure 50 locations to have drop boxes. 50
21	being that we have 49 municipalities in our county
22	plus one at the government/courthouse complex in
23	Media, the county seat. So that is where the 50 count
24	comes from. And that a voter could deposit their
25	ballot into a drop box in one of the locations.
